Your PO will be either **Amount** or **Qty** based

**Amount:** Usually used for POs relating to services. More than one invoice can be submitted against a Purchase Order. As you may need to submit more than one invoice you will find that the price can be changed according to the value of the invoice that you wish to submit

**Qty** Usually used for POs relating to goods. A Single invoice may be submitted against such purchase orders and the Qty field cannot be changed

Note: If you find you are not able to invoice against the PO (i.e. due to a QTY PO being issued and not able to change the price) you must contact your Mitie requester by adding a comment against the PO asking them to cancel the PO and re-raise an AMT based PO. You are unable to create an invoice with a greater value than the PO
