

# Legal Entity Set-up

## How to set-up your legal entity in your CSP

This guide will help you to create your legal entity in your Coupa supplier portal (CSP) you will need the following information. You will need to have a legal entity set-up before you can invoice Mitie. Coupa will require 2 Factor-authentication to be set-up to create/ manage your legal entity.

- Your company address.
- Bank & Remit-To Details
- VAT/ Tax registration number (UTR number for UK sole traders)
- Ship from addresses (If shipping from country to country)

If you have three or more legal entities, they are collapsed. To view their details, click on the Down arrows.

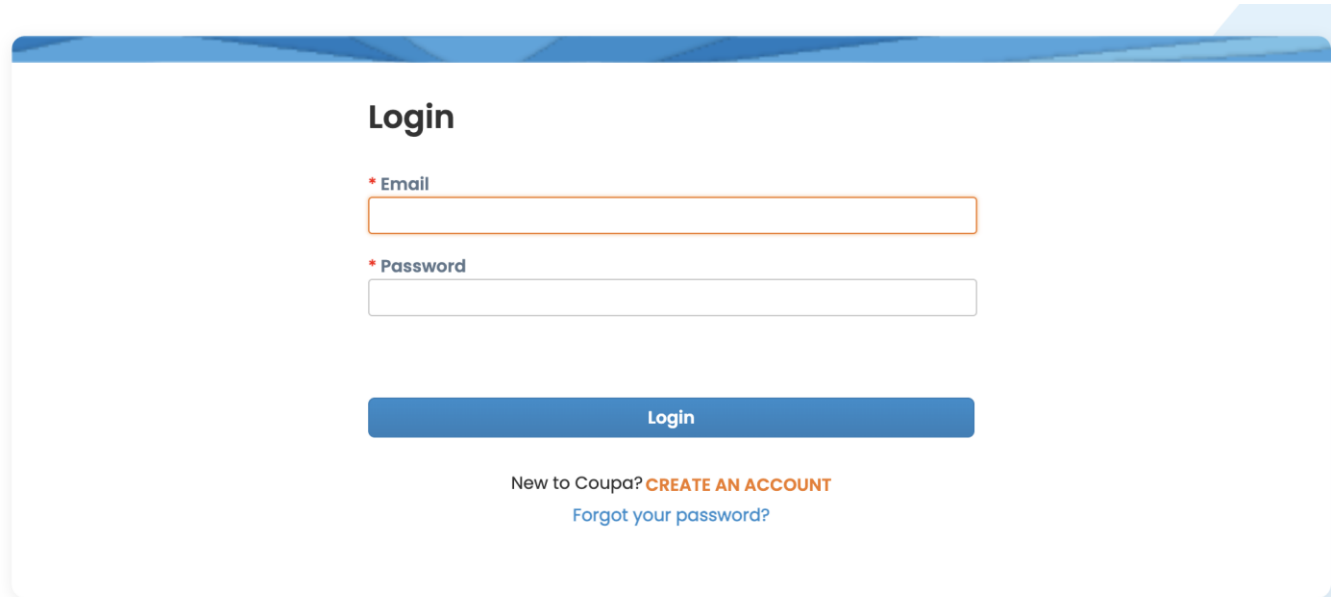

Each legal entity has the following sections:

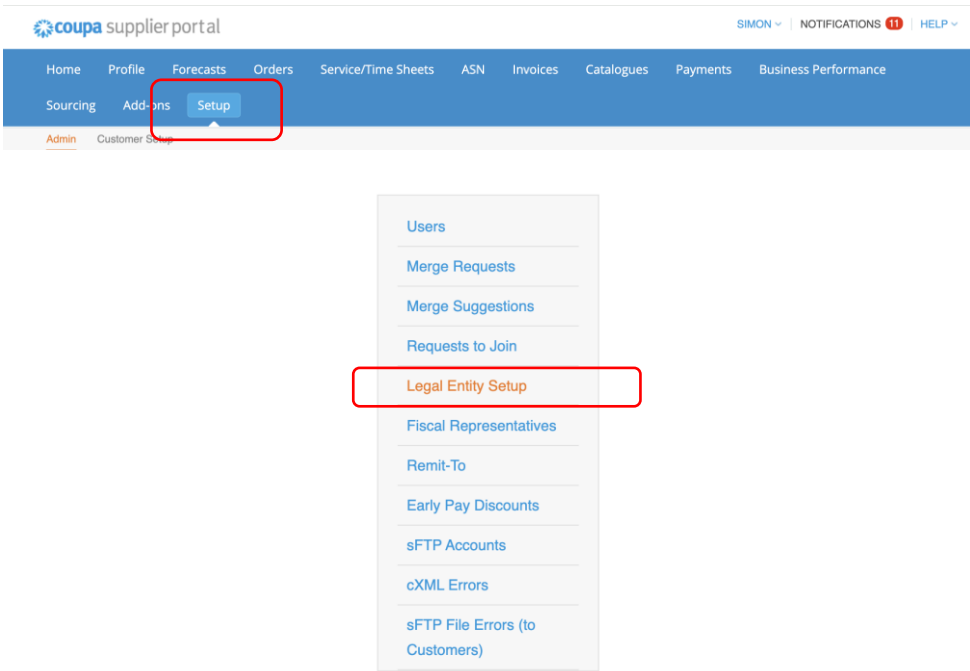

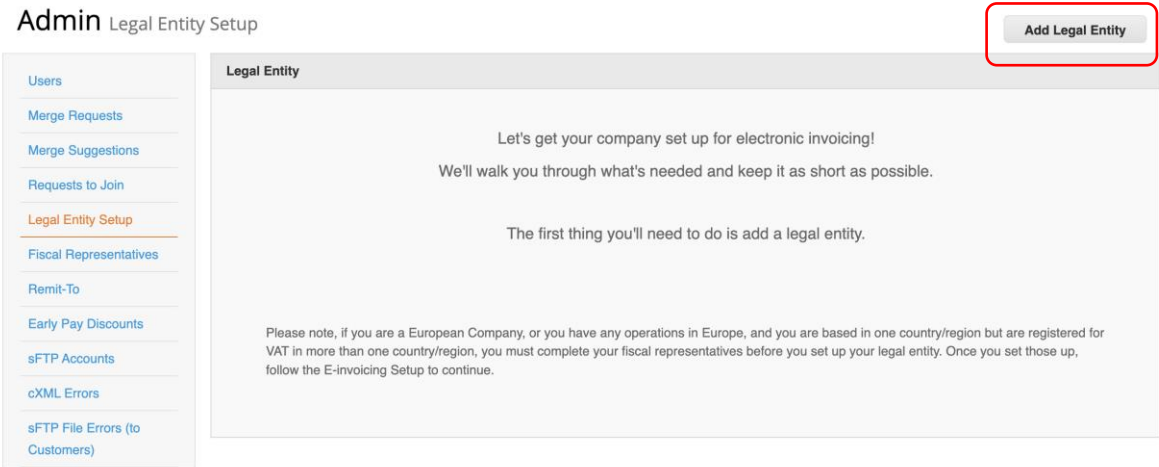

- Invoice From
- Remit-To Accounts – Can be of type: Address, Bank Account, or Virtual Card.
- Locations
- Customers – The name(s) and number of customers that you provided with the specific legal entity are also shown. Hovering your cursor over customers displays the name(s) of the customer(s) associated with the legal entity.

Mitie use's Coupa for suppliers to invoice Mitie. "This How to Document" assumes the supplier is already onboarded and have a Coupa supplier portal log-in.

It is recommended that you have one legal entity setup in your CSP account for Mitie, multiple Legal entities attached to the same customer will not default your Remit to details on while creating your Invoice and won't match Mitie's supplier master records.

To cancel any old or incorrect Legal entities, click actions and Deactivate Legal Entity. This will delete the current legal entity and will need to click add legal entity for a new one. Manage Legal entity does not allow you to edit allot of your Company information i.e. VAT number bank details etc.
